 **SKYLINE**  
AMBIENCE

We are proud to present the latest in **business, professional and personal ambience design** from SKYLINE. Research has proven the importance of environment and its affects on one's health, well being and productivity whether it's in the home or office.

A calm and visually refreshing atmosphere is essential to your overall performance. Take advantage of your existing surroundings to increase production, reduce stress and present a **visually stunning atmosphere** for clients or your family.

# OFFICE

Outstanding office environments designed to impress clients reflect a **professional attitude** from reception to conference room.

**SKYLINE**  
AMBIENCE

**Colorful and Inspiring**

**SKYLINE**  
AMBIENCE

Few things can change the 'environment' of a room as easily as changing the visual ambience that surrounds you. Ambience design is a simple and inexpensive way to introduce yourself as **professional** to your clients, **increase productivity levels** and **staff well-being** in general as well as give energy to a reception area, office or boardroom. Add **life, light and colour** to any room in your home quickly and easily with little or no preparation. Introduce a nature scene or cityscape to any wall and quickly change how large the room feels and its level of comfort.

Make a statement, share photos, open a wall to graphic or natural art. Whatever your needs or desires, **Skyline Ambience** offers affordable and professional ambience design and installation services.
